DETAILED ACTION

1) Acknowledgement is made of Amendment received 2/27/2007. Claims 1-5, 19-21 are amended, claims 6-18 are cancelled, and new claim 22 is offered for consideration.

Specification

2) The amendment filed 2/27/2007 is objected to under 35 U.S.C. 132(a) because it introduces new matter into the disclosure. 35 U.S.C. 132(a) states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: Claim 1 recites "A kit for constructing one of a plurality of doctor blades of different lengths...". The concept of "a kit" is not supported and the term "a kit" is not recited in the original presentation.

Applicant is required to cancel the new matter in the reply to this Office Action.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3) Claims 1-5, 19-22, are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to

one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Claim 1 recites "A kit for constructing one of a plurality of doctor blades of different lengths...". "A kit" is not supported in the original presentation.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4) Claims 1-5, 19-22 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 is not clear as to what defines "a kit". "A kit" is not supported nor recited in the original presentation.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2) Claims 1-4, 19-22, are rejected under 35 U.S.C. 102(b) as being anticipated by Fitzpatrick (2,710,445). Fitzpatrick discloses a safety razor wherein a ribbon-type strip blade 40 is enclosed in complementary casings 12 and 14 of casing 10. The blade is

shown in Figure 9. Knob 46 is used for moving the blade and securing the blade in any suitable manner by rivet 44. As shown in Figure 5, consecutive numerical indicia corresponding to successive blade lengths are printed directly on the blade 40 and are observed through aperture 60 in the razor casing 10 to indicate what blade length is advanced into shaving position. There are dotted lines and solid lines on the blade. The blade advancement may be of any desired length (col. 3, lines 12-32)(col. 1, line 64 to col. 3, line 54, and Figures 1-9).

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3) Claim 5 is rejected under 35 U.S.C. 103(a) as being unpatentable over Fitzpatrick in view of Toivanen (WO 99/60207). Fitzpatrick is silent on rivets as markings on the blade. Toivanen discloses doctor blade 11 placed on reel 100 in storage box P being pulled by pulling device 16 into blade holder 14 and after use as a doctor blade it is pulled into winding device 17 for used doctor blades. Figure 2A of Toivanen shows guiding pins 60a, which read on rivets. It would have been obvious to combine the teachings of Fitzpatrick and Toivanen, because such a combination would provide for improved marking of blade segments in the apparatus of Fitzpatrick.

Response to Amendment

- 4) Claims 1-2 rejection under 35 U.S.C. 102(b) as being anticipated by Toivanen (WO 99/60207), is withdrawn in view of amended claims.
- 5) Claims 3-5, 19-21 rejection under 35 U.S.C. 103(a) as being unpatentable over Toivanen, is withdrawn in view of amended claims.

Conclusion

- 6) Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
